

COMMUNITY COLLEGE
OF RHODE ISLAND

Office of Human Resources

POSITION DESCRIPTION

POSITION: Network Technician III

LOCATION: Department of Information Technology

REPORTS TO: Manager, Network Planning and Services

GRADE: CCRIPSA 12

WORK SCHEDULE: 35 hours per week; normally Monday - Friday

ABOUT CCRI:

The Community College of Rhode Island is the state's only public comprehensive associate degree and certificate-granting institution. We provide affordable open access to higher education at locations throughout Rhode Island. Our primary mission is to offer recent high school graduates and adult learners the opportunity to acquire the knowledge and skills necessary for intellectual, professional and personal growth through an array of academic, career and lifelong learning programs.

At CCRI, we are committed to building an inclusive and diverse campus community. We strive to hire and retain culturally competent faculty and staff members who reflect the demographics of our state and our increasingly diverse student population.

We believe that our diversity is our strength. We celebrate, support and thrive on the diverse experiences, backgrounds, and perspectives that are represented across our four campuses.

We are OneCCRI, working together to prepare learners to achieve their highest potential.

To learn about what employees value at CCRI and what it means to work here, please read about our Guiding Principles and watch videos of our employees doing what they do best: <https://www.ccri.edu/equity/culture/guidingprinciples.html>

BASIC FUNCTION:

Under limited supervision, is responsible for assisting with the maintenance, planning, and installation of communications networks and services for the Community College across all campuses.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Assist with the planning, design and implementation. Maintain daily operations of multi-campus local and wide area networks; respond to service outages and emergencies outside of normal working hours as needed.

- Evaluate, implement, and support software, systems, and network hardware for network convergence/collaboration (voice, video, and data networks using one infrastructure).
- Install, configure, and maintain up-to-date network management software and tools with their underlying databases to monitor and manage the College's network.
- Plan, design, and implement all new network projects (including new construction) as well as removal of network equipment.
- Participate in and manage statewide collaborative OSHEAN (Ocean State Higher Education Academic Network) projects.
- Assume technical leadership for evolving network security, wireless and VoIP technologies.
- Participate in networking strategic and tactical planning and budget development.
- Manage network practices and policies; participate in policy definition.
- Other related duties as assigned.

OTHER DUTIES AND RESPONSIBILITIES:

Recruit, evaluate, train and supervise network support staff.

LICENSES, TOOLS AND EQUIPMENT:

- Must be proficient in the use of telecommunications systems and office systems such as word processing, spreadsheets, etc.
- Must have access to and use of own transportation.

ENVIRONMENTAL CONDITIONS:

- This position is not substantially exposed to adverse environmental conditions although will, at times, be required to perform work in manholes, attics, observation decks, rooftops, and other potentially adverse locations.
- This position requires 24 hour call-back in cases of emergency and supervisory presence, when required, on all shifts.

QUALIFICATIONS:

- Bachelor's degree or an equivalent combination of post-secondary education and three years' experience in technical support position with large-scale data and telecommunications networks and systems required.
- Must have availability for emergency call-in as well as ability to travel to support all campuses.
- Experience with wireless technologies, LAN/WAN equipment, security systems such as firewalls and NAC, network protocols, and network management systems required.
- Project management experience with data and telecommunications networks and systems preferred.
- Experience with analog and digital video systems preferred.
- Experience in computer programming, relational databases, inventory management/work order/trouble reporting systems, Windows, Macintosh OS, UNIX experience preferred.
- A Rhode Island Telecommunications System Technician's License, certificates such as CISCO CCNA, and experience in higher education also preferred.
- Strong service orientation, interpersonal, and communication skills for a diverse set of clients required.

CCRI is an Equal Opportunity / Affirmative Action Employer.

We recognize that diversity and inclusivity are essential to creating a dynamic, positive and high-performing educational and work environment. We welcome applicants who

can contribute to the College's commitment to excellence created by diversity and inclusivity.

CCRI prohibits discrimination, including harassment and retaliation, on the basis of race, color, national or ethnic origin, gender, gender identity or expression, religion, disability, age, sexual orientation, genetic information, marital status, citizenship status or status as a protected veteran. Inquiries or complaints concerning discrimination shall be referred to the College's Title IX Coordinator at: TitleIXCoordinator@ccri.edu.

The Jeanne Clery Act requires institutions of higher education to disclose campus policy statements and crime statistics. Our annual report is available here: <https://ccri.edu/campuspolice/pdfs/ASR-Final-92019.pdf>
