***Come explore the latest in health care topics!***

## **HEAL 1085 – Nursing Informatics** (3 credits)

This course is for individuals who work in health care service, education and other professions that deal with informatics. It examines the theory and application of nursing, computer and information science used to enhance decision-making in health care settings. This course includes an overview of computer networking, databases, research, and legal and ethical issues.

*Lecture: 3 Hours; Lab: 1 hour  
Knight Campus  
Tuesday, 4–6:30 p.m.*

## **HEAL 1015 – Health Issues in Aging** (3 credits)

This course is designed for individuals who work in the health care service, education and other professions that deal with an aged population. It seeks to examine the unique issues related to aging and the elderly with a particular emphasis on health aging in our society. Discussions focus on the interdisciplinary approach to elder care emphasizing healthy aging and optimal wellness.

*Lecture: 3 hours  
Knight Campus  
Thursday, 4–6:30 p.m.*
