

Associate in Science Degree in Business (ASB_BUSN)

Accounting Concentration (ACCT)

Associate degree programs in the Department of Business Administration are nationally accredited by the [Accreditation Council for Business Schools and Programs \(ACBSP\)](#).

The Accounting concentration assists students in developing analytical skills through a critical exploration of the fundamentals of accounting and the use of accounting for decision-making purposes. Students use the latest technology to perform various accounting functions. In addition, students work on developing communication, interpersonal, leadership, and teamwork skills. This concentration prepares students for entry-level positions such as accounting clerk, staff accountant, accounting assistant, bookkeeper, assistant auditor and tax preparer in public, private and governmental agencies. Students also may choose to transfer to four-year institutions to earn bachelor's degrees and should consult colleges for information on transferable courses.

Note: Many courses require prerequisites, corequisites and/or testing. [See course descriptions for details.](#)
