

Marketing Concentration (MARK)

Associate in Science Degree in Business (ASB_BUSN)

Associate degree programs in the Department of Business Administration are nationally accredited by the [Accreditation Council for Business Schools and Programs](#).

Students who successfully complete courses in this concentration develop communication, interpersonal, leadership and teamwork skills. Program graduates understand the role and importance of marketing in organizations, demonstrate critical-thinking, decision-making, strategic planning and communications skills, and are able to use technological resources – including online databases – to conduct research.

The Marketing concentration prepares students for entry-level positions such as marketing assistant or coordinator, advertising assistant, or salesperson or customer service representative. Students may choose to transfer to four-year institutions to earn bachelor's degrees and should consult colleges for information on transferable courses.

Note: Many courses require prerequisites, corequisites and/or testing. [See course descriptions for details.](#)
