

LIVING ORGAN DONATION

Created by the Alpha Delta Nu Nursing Honor Society

OVER 100,000 PEOPLE IN THE UNITED STATES ARE DESPERATELY WAITING FOR LIFE-SAVING ORGAN TRANSPLANTS

Give the gift of life

WITH THE HELP OF LIVING ORGAN DONORS, THOUSANDS OF TRANSPLANTS ARE MADE POSSIBLE EACH YEAR

Types of Donations:

Kidney

Liver Lobe

Lung Lobe

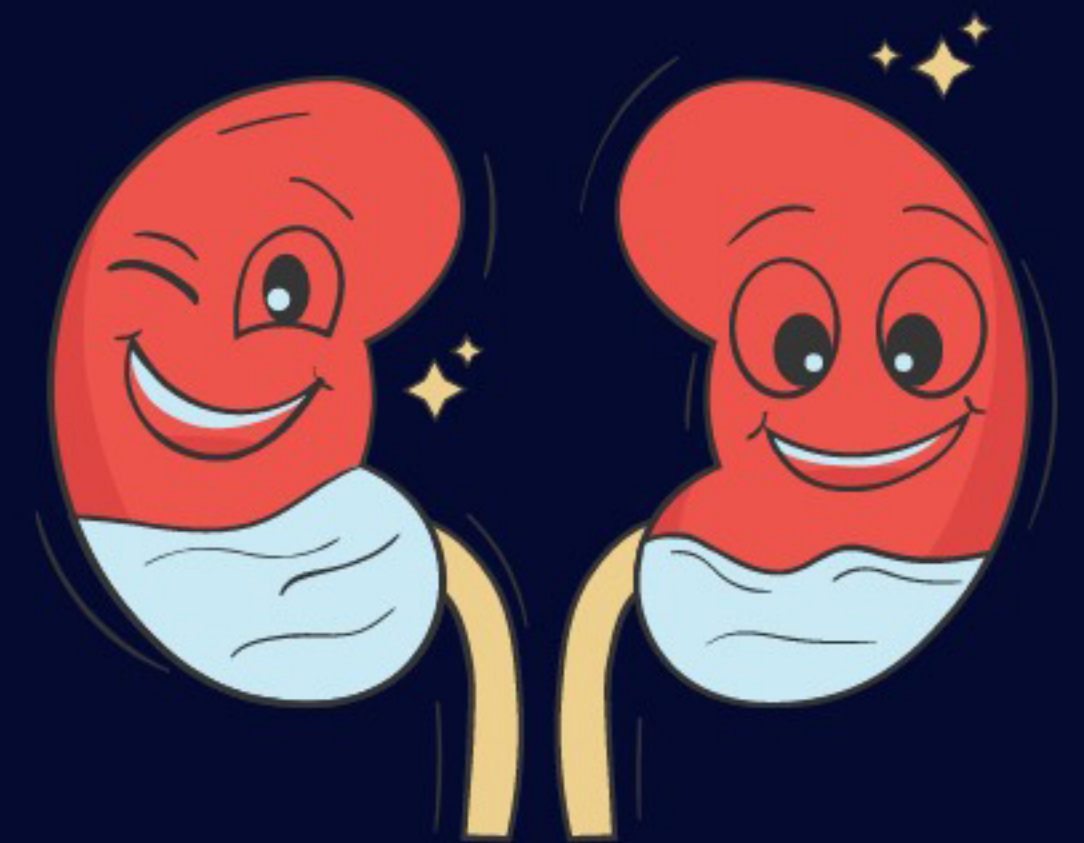

Blood

Bone Marrow

Pancreas

Intestine

Placenta

Scan the QR code to visit the United Network for Organ Sharing

LIVING DONATION IS WHEN A HEALTHY, LIVING INDIVIDUAL DONATES A WHOLE ORGAN, PART OF AN ORGAN, OR TISSUE TO SOMEONE IN NEED OF A TRANSPLANT TO SAVE THEIR LIFE.

THE GROWING NEED FOR ORGAN DONATIONS CANNOT BE MET BY DECEASED DONORS ALONE
