General Education Requirements

The PTA program is a two-year integrated program. There is a recommended sequence for students who choose to complete the General Education courses during a two-year program, however the general education courses may be taken any time prior to the second year of the program, and many students choose to take the General Education courses *prior* to being accepted to the program. The total program cost may vary for students who choose a different option for completing the General Education courses.

The costs for the General Education courses are integrated with the program costs by semester. The estimated cost of textbooks for the General Education courses is distributed equally between the first three full time semesters of the Program.
