**** Tips for Student Veterans ****

- If using Ch 30 or Ch 1606 you need to verify your attendance **every month** with the VA. This can be done by phone (877) 823-2378 or online: <https://www.gibill.va.gov/wave/index.do>
- If using Ch 35 (DEA), Ch 30, or Ch 1606 – you are responsible for paying tuition up front (Ch33 and Ch31 does not)
- Contact the VA Certifying Official immediately if there are any changes in your enrollment status, including adding courses, dropping courses, withdrawing or receiving incomplete grades – otherwise you will incur personal charges.
**** All of these changes have the potential to change your VA payment status and/or create debts to the VA or school.**
- Veterans should be choosing a major carefully
 - The availability of benefits does not always last until the degree is complete
 - Vets generally have 36 months (sometimes 48) to complete their program of study
 - Post 9/11 GI Bill (Ch 33) allows 15 years (from the last date of discharge) to use the benefit
- Choose your schedule wisely... Assistance from the Veteran Academic Advisor is recommended
 - Example: If you have trouble waking up in the morning, do not take 8am classes
 - If you cannot sit for long periods, try to avoid 4 hour classes
 - Consider taking 3 classes instead of 4, especially in your first semester (*this does not ‘waste’ your benefit)
- Classes must apply towards your declared major - otherwise the VA will not pay for courses
 - Example: If the Veteran is taking 4 classes (12 credits) and only 3 classes apply toward their degree plan, VA will only pay for the 9 credits
- Impact of grading on VA benefits:
 - WITHDRAWAL grades:**
 - Withdrawal grades (WP, WF, NA) create a debt with the VA because the VA views this as being incomplete
 - The money for that class will need to be repaid by the student Veteran to the VA
 - FAILURE grades:**
 - Failed classes do not create debt IF the Veteran remains in class for the duration of the semester
 - VA benefits can be used to retake the failed class because it is required for your program
 - Beware of this option because the “clock” for using benefits continues (i.e. using up months)
 - Please note: Failing grades obviously impact the students GPA, which can affect financial aid, academic probation, and admission to competitive programs
- Other Considerations:**
 - “Incompletes” that turn to letter grades are a good option if the Veteran can make up work
 - RI National Guard members can also use the State Tuition Assistance Program (STAP)
 - a. Under this STAP program, the NG member must maintain a “D” or better or the course is not covered
 - b. This means the Veteran would then owe money for the course to CCRI if below a “D”
 - c. Note: This is a different policy from VA Education and needs to be considered
- VA Payments – Process:**
 - Veteran must submit the “Student Vet Worksheet” each semester in order to be certified
 - School Certifying Official reports Veterans credits to VA via a “certification” (1999 form)
 - Veteran will receive an email (to CCRI email account) indicating when they have been certified
 - VA processes the certification and awards payment to the Veteran based on # of credits
 - Any changes in credits must be reported to the School Certifying Official **
 - VA education payments are paid in “arrears”
 - Ex: The payment for the month of January comes around February 1st
 - CCRI certifies Vets early in an effort to get payments released early – particularly book payments
